

**Office Manager & Project Engineer**  
[eemmett@augustmack.com](mailto:eemmett@augustmack.com)

Eric Emmett, P.E., is a licensed professional and the Office Manager of the August Mack Environmental, Inc. Missouri Office. Mr. Emmett has over 19 years of environmental and safety compliance experience for industrial and municipal facilities. Environmental support services range from providing full outsourced environmental compliance to providing individual environmental services including hazardous waste, storm water, spill control and countermeasure (SPCC) issues, waste water and air permitting. Mr. Emmett's extensive experience has allowed his clients to come into compliance with state and federal regulations in an efficient and cost-effective manner. Mr. Emmett's environmental expertise also includes SARA Section 311, 312 and 313 reporting, construction management, landfill permitting and design, and wastewater permitting. Mr. Emmett has earned his degree in geological engineering from the University of Missouri Rolla and is a registered professional engineer in 15 states.
