

Senior Manager

pwarren@augustmack.com

Paula Warren is a Senior Manager in Closure Services at August Mack Environmental, Inc. She has over 14 years of environmental consulting experience. Her professional experience and technical expertise include: Resource Conservation and Recovery Act (RCRA), Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), underground storage tanks (UST), and state voluntary remediation programs; geological and hydrogeological investigations; soil, sediment, and groundwater sampling and data evaluation; vapor intrusion evaluation and mitigation; remedial evaluation; risk evaluation and risk assessment; and environmental site assessments. She specializes

in managing various environmentally impacted sites by working with the regulatory agencies and clients (i.e. corporations, attorneys, insurance companies, etc.) to investigate and remediate impacts.

Project Experience:

- Performed extensive research, assessment, and report writing or review for several hundred properties for Phase I Environmental Site Assessments (ESAs).
- Managed, conducted investigations and remediation, and closed numerous sites enrolled in state voluntary clean-up, state cleanup, and leaking underground storage tank (LUST) programs in Indiana, Kentucky, and Ohio.
- Performed numerous vapor intrusion investigations, designed a vapor mitigation system, implemented operation and maintenance plan, and successfully mitigated facilities.
- Performed and supported due diligence and Brownfield efforts for property transactions throughout the United States.
- Managed Hydrogen Release Compound (HRC), RegenOx, Oxygen Release Compound (ORC), and zero-valent iron (ZVI) chemical injection techniques for the successful remediation of multiple sites including former printing plants, bottling plants, gasoline service stations, dry cleaners.

Education & Certifications:

- B.S. Natural Resources and Environmental Science: Minor in Policy, Purdue University
- 30-Hour Occupational Health and Safety OSHA Certificate
- 40-Hour Hazardous Waste Site Operations (HAZWOPER) Training, OSHA and current 8-hour refresher
- 8-Hour Hazardous Materials Supervisor, OSHA Certificate
- 8-Hour HAZWOPER Cleanup/UST Removal Manager

Expertise:

- RCRA Corrective Action/CERCLA
- Geological and Hydrogeological Investigations
- Soil and Groundwater Sampling
- Vapor Intrusion (VI) Coordination, Evaluation, and Mitigation/Design
- Soil and Groundwater Remediation Systems
- Soil Management Plans
- Indiana Brownfields
- UST Removal and Management
- Environmental Insurance Claim Management
